

CUSTOM COMPACT SELF PROPELLING LIFT FOR 50,000 LB STEEL COILS

SPECIALTY SOLUTION #24

PROCESS INDUSTRIES

- Self-propelling lift with onboard hydraulics
- 50,000 lb. capacity
- Integral power pack
- Central lubrication access
- Anti-friction bearings at all pivots
- Polyurethane-covered rollers ensure that the coils are not damaged during handling

Handling Specialty was presented with a material handling challenge by steel giant Allegheny Ludlum to move steel coils through an existing narrow pit system. Fitting within 3/4" of the pit walls, the 50,000 lb. capacity lift measures only 64" wide and 84" long.
